PROPERTY TAXES

Property owners pay property tax to taxing entities such as counties, cities, school districts and special service districts that provide public services.

$$\text{Taxable Value} \times \text{Tax Rate} = \text{Property Tax}$$

Each year, your property tax is calculated by multiplying the taxable value of your property by that year's tax rate for each taxing entity. Each year, both the taxable value and the tax rate will change. This document notifies you of the calculation of your property tax this year and what you may do if you disagree.

If a taxing entity is not increasing its tax rate you may still participate in public hearings regarding its budget. You may also contact the people who are elected or appointed to set the budget and tax rate for the taxing entity.

Tax Increase: If a taxing entity intends to increase its tax rate this year, you are given notice and may participate in the public meeting. The date, time, and place of each public hearing is listed on the front of this form.

If you are 65 years old or older, disabled, or experiencing extreme hardship, and this property is your primary residence, you may be eligible to defer payment of this property tax. Apply for tax relief or deferral by September 2. Contact the Treasurer at saltlakecounty.gov/treasurer/tax-relief/ or at 385-468-8300 for information.

Notice of Intent to Issue a Tax Bill. It is intended to provide notice of (1) a government action that will affect you and (2) your opportunity to be heard on the matter.
